PREPARING FOR BATTLE ON THE WESTERN FRONT

Both Germans and Allies Have Made Extensive Preparations

MUCH ACTIVITY PAST WEEK ALONG ENTIRE ARMY FRONT

Sec. Baker Reviews Operations Saying Armies Are Ready For Offensive

(Associated Press Telegram) Washington, Feb. 20.—After extensive preparations silently and systematically carried on it is apparent that both the Germans and the allies are ready for the long expected offensive in the west, Secretary Baker says today in his review of military operations for the week ending Feb. 16.

"While there have been outwardly no new developments in the military situation in the west during the period under review," says the communiqué, "yet it is apparent that both the enemy and the allies, after extensive preparations which have been silently and systematically carried on, are ready for battle. The Germans have recently withdrawn a number of their veteran west front units from the first line trenches and are busily training them in mobile warfare.

"According to advices received the German staff hopes that by massing a large number of these picked shock battalions which have been intensively trained they may deliver a crushing blow.

"The bulk of the German forces are now assembling in the west. But a large number of these units are wholly untrained in the method of western front warfare which differs radically from that conducted along the other fronts. Furthermore, the German higher command realizes fully that their forces will meet with far more difficult tactical obstacles than any hitherto encountered by an attacking army. A breakthrough was possible in Russia only after the morale of the Russians had been undermined; the same was true in Italy and we witnessed how speedily the Italian line was mended.

"During the week there has been much activity of minor character along the entire western front. "As has already been announced in Lorraine a segment of the line is entirely under the control of our forces. Along our front patrol encounters were numerous. The Germans undertook a raid against our positions and succeeded in inflicting a few casualties. A small American patrol while scouting in No Man's Land was ambushed by the enemy.

"There was very rainy weather during the first part of the week and our troops were busy mending the pumps in an effort to keep their trenches dry. Later clear weather prevailed and hostile aircraft made frequent flights to reconnoiter our positions. A marked improvement in our anti-aircraft barrage is reported. Artillery duels took place and the Germans showered our lines with gas shells which, however, caused no casualties owing to efficient gas mask protection.

"In Champagne, units of American artillery participated in an engagement undertaken by French forces. This operation was the most important of the week in the west. After very careful artillery preparation during which our batteries co-operated usefully, French infantry advanced to the assault southwest of (Continued on Page 2, Col. 2.)

74 OF THE AMERICAN SOLDIERS ARE STILL UNACCOUNTED FOR

(Associated Press Telegram) Washington, Feb. 20.—Seventy-four American soldiers aboard the torpedoed liner Tuscania remained unidentified or unaccounted for today, according to the latest checks of lists of survivors and missing available to the war department and The Associated Press. Included in this number are 33 unidentified dead, buried in Scotland and 41 still reported as missing.

The names of 44 additional American soldiers who were rescued from the liner and one other listed as missing, but who was not on the ship, were accounted for by the war department last night.

CONSIDER INCIDENT STRAIGHTENED OUT

(Associated Press Telegram) London, Feb. 20.—A majority of the morning papers accept the statement made in the house of commons yesterday by Premier Lloyd George as a satisfactory explanation and entirely approve of the Versailles agreement and consider the whole incident straightened out.

Hostile newspapers continue to be unconvinced and reiterate their sharp criticisms but seem resolved to accept the situation. Some of the papers endorse the regret expressed by Premier Lloyd George that the premier had not spoken with equal clearness a week ago.

WAS OFFICER ON LOST TRANSPORT

Maj. Benjamin F. Wade.

Major Benjamin F. Wade of Washington was senior military officer on board the lost Tuscania. He is said to have been the last to leave the ship and handled his men with coolness.

NO SHORTAGE OF GASOLINE IN THIS COUNTRY

(Associated Press Telegram) Columbus, Feb. 20.—There is no shortage of gasoline in this country and no signs of a shortage, according to information furnished the governor's office today by the petroleum war service committee, which was asked for a statement concerning the supply.

The light domestic demand during the winter has made possible an increased stock. While there is an increasing demand abroad, both by American forces and by the allies, the limiting factor is shipping tonnage. It is estimated that in 1917 not more than 25 per cent of the gasoline produced in this country was exported.

"Experience and inquiry made it clear," says the statement, "that the petroleum industry in America can and will supply all the increased demand for oil products for the war, provided sufficient tank steamers can be secured."

ADVANCE MADE BY THE BRITISH

(Associated Press Telegram) London, Feb. 20.—The British army in Palestine made an attack yesterday east of Jerusalem, advancing two miles on a front of fifteen miles, it is announced officially.

NO DATE SELECTED FOR SECOND DRAFT

(Associated Press Telegram) Washington, Feb. 20.—Secretary Baker authorizes the statement today that no date had been selected for the beginning of the second draft. Various estimates have placed the time between March 1 and June 1. These are declared to be entirely guesses.

The government's disposition not to disturb the labor situation, particularly on farms at the planting season, is one of the factors entering into the situation. The provost marshal general's office, it is understood, is disinclined to go ahead with the second draft until congress has perfected the law by pending amendments to change the basis of apportionment and to authorize the president to call into the military service men skilled in industry and agriculture regardless of previous classification.

The remaining increments of the first draft will begin to move forward to the camps beginning this week. It is probable that next month local boards may be asked to forward small increments necessary to replace men going overseas but the expected summons of half a million will be later.

Plans for the second draft as now under consideration include 100,000 a month until the second quota is complete. In that way officials expect to avoid much of the confusion which accompanied the first call. The men will report in a steady stream and be assimilated into the military machine before the next lot is received.

It has been definitely settled that the first contingents will be used to fill vacancies in National Guard divisions caused by the withdrawal of men for the organization of special and technical units. Similar vacancies in the national army divisions will have been filled by that time from the final increment of the first draft.

GREAT RUSSIA IS INVADIED BY GERMAN ARMY

Bolsheviki Willing to Conclude Peace On Central Powers' Terms

BACK DOWN OF FORMER MAY NOT CHECK ONWARD MARCH

American Artillery Continues to Scatter Shrapnel Over Trenches

(Compiled from A. P. Dispatches.) Notwithstanding the Bolsheviki have announced their willingness to conclude an immediate peace on the central powers terms the German armies are continuing to advance into Great Russia. The German headquarters statement today reports a further forward move of the German forces which recently crossed the Dvina on the northern front and occupied Dvinsk. They pushed on east and northeast of that city yesterday, it is announced.

Germany undertook this campaign to safeguard peace and order in the occupied regions on her eastern frontier, Dr. von Kuehlmann, the German foreign minister told the reichstag main committee yesterday. She had lost faith in the pacific intention of Russia, he declared. Nevertheless von Kuehlmann announced, Germany even now was ready to make peace with the Russians on a basis which would protect German interests. It seemed probable that his address was made before the Bolsheviki protest and offer of submission was received in Berlin but the continued advance of the German armies reported today makes it appear that the German military authorities at least are in no haste to check the forward movement.

The Bolsheviki government, in this connection, reports that General Hoffman, German military representative at the Brest-Litovsk peace conference has asked that written confirmation of the Russian wireless peace offer be sent to Dvinsk. The Russians have forwarded such confirmation, to Dvinsk by messenger, they announce. Every effort is being made by the Austrian authorities to convince their people that the peace made with the Ukraine was not only one of the greatest material advances to the central powers but that any injustice that might have been done to Poland by subtracting from her the province of Cholm and giving it to the Ukraine will be remedied. Great dissatisfaction has been created among the liberals in the dual monarchy by this territorial feature of the peace settlement.

Premier Von Seydler, now announces a separate agreement between Austria-Hungary and the Ukraine under which a mixed commission (Continued on Page 2, Col. 3.)

GERMANY'S WAR AGAINST RUSSIA IS NOT POPULAR

(Associated Press Telegram) London, Feb. 20.—Germany's new war against Russia apparently is not popular with the German or Austrian people, according to comment in the press of the two countries. When the Brest-Litovsk negotiations closed all talk in Germany was of peace. The school children were given a holiday and joy bells were rung. The public apparently did not discriminate between peace with the Ukraine and with Great Russia, but acclaimed it as a general peace with Russia.

George Bernhard in the Vossische Zeitung emphasizes this point and wants an explanation of who is responsible for this disappointment. The socialist Vorwaerts takes the same line and says: "What must be done is to stick to the defense of our own soil and to make peace wherever possible without annexation or forcible amputations."

A large section of opinion in Austria-Hungary also is alarmed over the prospect of a renewal of war with Russia.

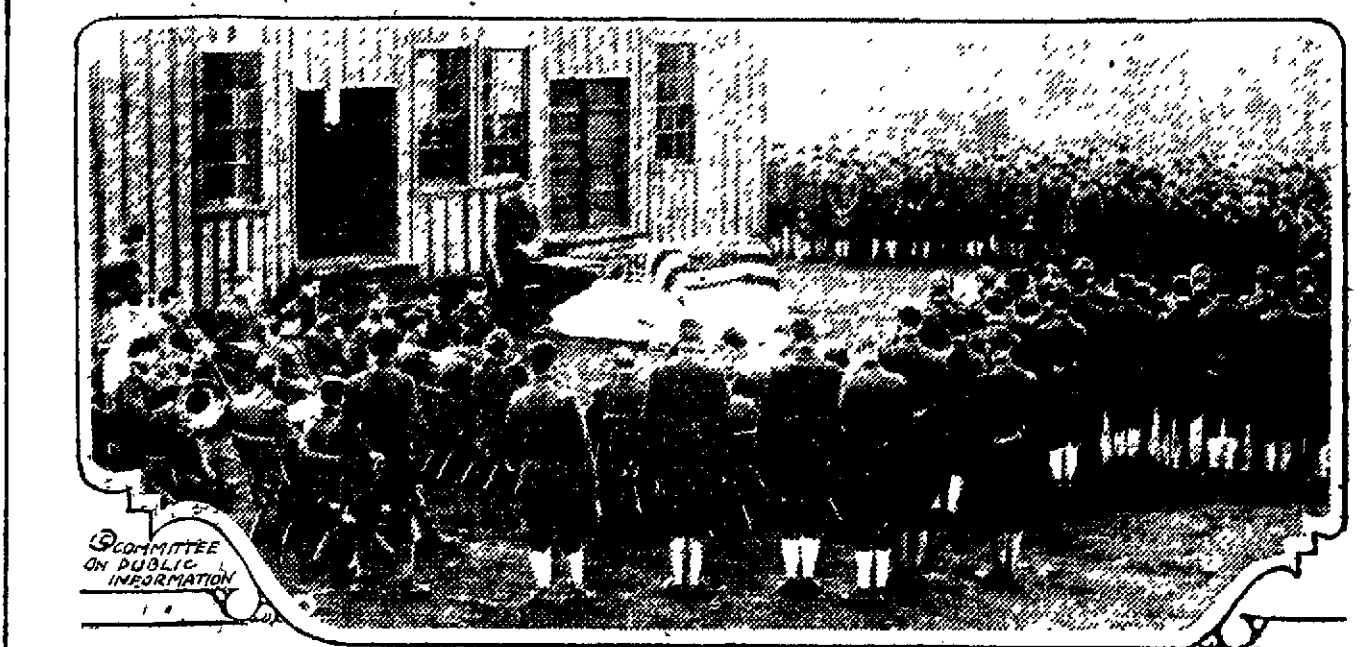

Dispatches from Amsterdam and Zurich quote Austro-Hungarian newspapers to this effect and a Vienna dispatch to the Vossische Zeitung reports a rising of feeling against Germany on account of her action against Russia.

The Neue Freie Presse and the Reichs Post argue that as Austria-Hungary no longer has no enemies on her eastern frontiers she is not called to interfere in Russian internal affairs. The Arbeiter Zeitung, Vienna's leading socialist newspaper insists that Austria-Hungary must not take part in a new offensive.

SEIZE GERMAN FIRMS

(Associated Press Telegram) Manila, P. I., Feb. 20.—Acting on behalf of the custodian of alien enemy property Governor Harrison today seized nine German and Austrian firms in Manila, naming one British and eight American receivers. The provincial branches of these houses were closed and placed in the hands of the constabulary pending action by the receivers.

COMRADES PAY LAST TRIBUTE TO LAD WHO DIES FOR FLAG FAR FROM BATTLE FRONTS

Last rites at Camp Lewis.

The boy for whom these rites are being said is one of the unsung heroes who has given his life for his flag without ever getting within gunshot of the Germans. He died at Camp Lewis, American Lake, Wash. The army chaplain, after eulogizing the spirit of the boy, is leading his khaki-clad comrades in a prayer. Over the casket is draped the flag the boy hoped to follow into Berlin.

CLEVELAND BAKERS CONTINUE TO SELL AT ADVANCE PRICE

(Associated Press Telegram) Cleveland, Feb. 20.—Fight to a finish apparently was the determination of the seven big Cleveland bakeries which have been defying the government when their today's bread deliveries to retailers were again made at the forbidden price advance which takes from 1 to 2 cents extra from purchaser.

Tuesday midnight was the time set by the state food administration Croxton for the bakers to return to the 7-1-2 and 1-1-1-2 wholesale prices in force up to Saturday for 16 and 24 ounce loaves, respectively. The new wholesale prices, 8-1-2 and 12-1-2 cents, forbidden until the seven bakeries had submitted figures showing the increase to be justified, were still in force today.

Housewives who previously had paid 9 and 13 cents, are compelled by the new schedule to pay 10 and 15 cents.

CONFERS WITH HOOVER OVER THE SITUATION

(Associated Press Telegram) Columbus, Feb. 20.—Fred C. Croxton, federal food administrator for Ohio was in conference over long distance telephone today with Herbert C. Hoover, federal food administrator at Washington over the refusal of several Cleveland bakers to reduce new high prices pending a hearing before food administration authorities.

The Cleveland bakers were given until last midnight to comply with the administration's order but today were reported to be selling their bread at the advanced prices.

It was considered probable that some drastic action would be taken by the food administration today.

APPROVES THE TREATY

(Associated Press Telegram) Amsterdam, Feb. 20.—The federal council of the German empire, a dispatch from Berlin says, has approved the peace treaty with the Ukraine.

THEIR IS TASK TO SEE THAT OUR SHIPPING GOES ON DESPITE U-BOATS

Vance C. McCormick of U. S. (left) and Sir Joseph MacLay of England shipping controllers.

The task of seeing that allies' shipping goes on despite the U-boats is on the shoulders of these two men—Vance C. McCormick, chairman of the U. S. war trade board, and Sir Joseph MacLay, shipping controller for Great Britain. They were snapped while in attendance at the recent conference of allies' representatives in Paris.

DENIES CHARGES OF BROTHERHOOD LEADERS

(Associated Press Telegram) Washington, Feb. 20.—The railway wage commission, which continued today its session with railroad officials will if it desires, be given full information regarding the alleged attempts of railroad managements to discredit government ownership, according to E. T. Whiter, of Pittsburgh, assistant general manager of the Pennsylvania lines, west.

Mr. Whiter's testimony, given the commission yesterday, practically denied charges of brotherhood leaders that the managers are encouraging inefficiency while the roads are under government control.

BREWERY WORKERS REQUEST STATE TO CLOSE CABARETS

(Associated Press Telegram) Columbus, Feb. 20.—Columbus brewery workers today petitioned the state liquor license commission to assure an order closing all cabarets in Ohio, and especially those in Columbus. The committee which made the request said that cabarets are more responsible for the creation of dry sentiment than any other cause, and that if they are permitted to continue in business the brewery workers will refuse to haul beer to them.

LUTHERANS START CAMPAIGN

(Associated Press Telegram) New York, Feb. 20.—The Lutheran Church of America, through an army of 30,000 workers today started a nation-wide campaign to raise a war time service fund of \$750,000 for the benefit of the 160,000 Lutheran men with the colors.

CABLES PARDON OF FATHER TO SOLDIER SERVING IN FRANCE

(Associated Press Telegram) Columbus, Feb. 20.—A single word, "pardoned," was cabled to a boy with the American expeditionary forces in France by Governor Cox today. It is an answer to a letter just received from the Ohio soldier boy, who asked that his father be pardoned from the penitentiary.

"I am willing to die for my country and I could die happy if I could but know he is free to care for my mother," wrote the boy.

The man was freed with five other prisoners today. He was convicted of stealing and had almost a year more to serve. At the request of both the father and the son, Governor Cox did not make known his name.

Others pardoned were: George Hauck, sentenced in October, 1915, to from five to thirty years for burglary in Brown county.

Lewis McMullen, negro, sentenced in November, 1913, for life for second degree murder in Pike county.

Harry Lutz, sentenced in March, 1915, from Guernsey county, to from 5 to 30 years for burglary.

Hugo Klutke, sentenced in September, 1917, to from one to twenty years for cutting with intent to kill, from Lorain county.

All pardons were granted on condition that the men abstain from liquor and stay away from saloons. McMullen must return to Missouri.

George Morgel, sentenced for burglary in Belmont county to from five to twenty years was released on condition that he go to a brother at Middletown where employment will be provided for him.

DEFERRED DRAFT IS CONSIDERED BY DEPARTMENT

(Associated Press Telegram) Washington, Feb. 20.—Deferred draft classification for railroad employees is under consideration between the war department and the railroad administration, it became known today.

The war department objects to giving special consideration to railway employees as a class, insisting that the case of each man should be considered individually as to whether he is indispensable to the railroad administration, which contends that few railroad men are actually indispensable and that unless some uniform action is prescribed local exemption boards may be inclined to refuse deferred classification to thousands of necessary employees who have no dependents.

Nearly 500,000 railroad men are within the draft age. But the actual number which would be affected by such a ruling is estimated at less than 200,000.

WILL NOT REVERT TO THE UKRAINE

(Associated Press Telegram) Basel, Switzerland, Feb. 20.—Dr. von Seydler, the Austrian premier, has announced to the reichsrath representative that the Ukraine Rada and the Austro-Hungarian government have signed an agreement supplementing the Ukraine peace treaty by which the province of Cholm will not revert to the Ukraine republic.

A mixed commission will be appointed to decide its fate on race principles and with regard to the wishes of the population.

Much feeling has been aroused among the Poles through the fact that the old province of Cholm, a part of Poland had been given to the Ukraine by the peace treaty signed at Brest-Litovsk. The attitude of Polish deputies in the Austrian parliament also threatened the stability of the von Seydler government whose resignation was refused by Emperor Charles, February 9. Strikes of protest against the ceding of Cholm have been held in both Russian and Austrian Polish cities.

The population of Cholm is made up of various races and formerly was included in Poland.

LLOYD GEORGE AVERTS CRISIS IN PARLIAMENT

Explains and Defends Reorganization of Versailles Council

PLAN AGREED UPON DUE TO AMERICAN REPRESENTATIONS

Military Heads Are Prepared to Work Under a New Arrangement

(Associated Press Telegram) London, Tuesday, Feb. 19.—Premier Lloyd George and his government have surmounted another "crisis" and the parliamentary waters at Westminster appear to run smoothly once more after a week's turmoil stirred up by the retirement of General Robertson, chief of the imperial general staff.

In the house of commons today the premier explained and defended the recent reorganization of the Versailles council with the added powers given to it and his dealings with the famous British chiefs of staff. There was no proposal for a vote of want of confidence, but H. H. Asquith, the former premier, expressed regret that the explanation had not been given a week ago.

The occasion was not as stirring as have been on other appearances of the premier before the house when his administration has been under attack. His speech was a detailed but guarded recital of the proposals by which the four powers at Versailles had arrived at the principles of their latest form of co-operation.

The plan finally agreed upon by the council, said the premier, was due largely to the strong logical representations which the American delegates had submitted in the form of a memorandum, and he several times reverted to the influence which American policy had exercised upon the results of the conference. He paid warm tribute to General Robertson and expressed the regret of the government that it had been unable to induce him to take a position in which his abilities would be most usefully asserted the country regarded with deep concern the recent enforced retirement of the government's chief naval and military advisers—Admiral Jellicoe and General Robertson. The public and their own professions had the utmost confidence in these men. Mr. Asquith added that the country had noted that both retirements were preceded by a hostile press campaign.

It was felt, Premier Lloyd George said in his speech, that the new executive body at Versailles must know not only about their own armies and their own fronts, but also about all conditions on all fronts and in all armies and in all nations. Versailles had become the repository of information of all fronts, all armies, all nationalities, all staffs, and all foreign offices, and that information was being coordinated by very able staffs. It constituted information which no single war office possessed.

The premier declared he was anxious that the Versailles arrangements be worked on wholeheartedly by the military authorities here and in France. He had had a talk with Field Marshal Haig, who said he was prepared to work under them.

The arrangements were that the British permanent military adviser at the Versailles council should become a member of the army council, that he should be in constant communication with the chief of the (Continued on Page 2, Col. 2.)

WOULD DISBAR DE RAN FROM PRACTISING IN THE FEDERAL COURT

(Associated Press Telegram) Toledo, Feb. 20.—Proceedings to disbar Attorney Hal C. De Ran, of Fremont, from practice in the federal court, were begun here today. De Ran, for many years prominent in politics and at one time a member of the house of representatives from Sandusky county, has been ordered by Federal Judge John M. Killits to show cause not later than March 6 why he should not be disbarred for alleged contempt of court and perjury.

De Ran was the attorney for the trustee in bankruptcy of the Fremont Lumber company. Judge Killits recently ordered him to refund \$1,300 fees to which it is alleged he is not entitled. It is alleged that De Ran gave false testimony with reference to the company's affairs and that he has not complied with the order to refund the fees.

PRINCE OF WALES IN HOUSE OF LORDS

(Associated Press Telegram) London, Tuesday, Feb. 19.—The Prince of Wales took the oath and his seat in the house of lords today. The prince wore royal robes and the collar of the Order of the Garter.

PLACING SELECTS IN CONDITION FOR SERVICE ABROAD

Camp Sherman, Chillicothe, Ohio, Feb. 20.—Chronic and systematic ailments of officers and selects here are being eliminated as rapidly as possible to put the vast army Uncle Sam is training on an efficient footing as possible. Officers and selects who have need of surgical attention are given expert advice and the work is done gratis if the man gives his consent. Ailing teeth, bad ears or eyes and bad tonsils are remedied free of charge by medical authorities.

Thousands of men are taken each month at the regimental infirmaries and at the base hospital. Every effort is being made to put the division on the strongest possible physical footing before it is sent into active service abroad. Officers assert that women on the front they should be free from minor worries due to physical ailments.

Dental authorities in the British army say that 20 per cent of the physical ailments of their soldiers is due to bad teeth. Officers here have intimated that the estimate probably holds true for this division.

Chronic rheumatism, certain kinds of heart lesions and nervous conditions sometimes resulting in insanity have been found due to bad teeth in cases treated here. In January approximately 3000 camp Sherman selects had their teeth treated here by government dentists at 6000 sittings.

In many instances bad teeth have been removed and an immediate improvement in the physical condition of the selects has been noted. As soon as the new contingent of 8000 selects comes in next week each man will have his mouth checked by dental corps officers and bad cases will be given immediate attention, while all of the men have their teeth put in the best of condition before they are sent to France.

One select has been reported who was suffering from a form of mental derangement and was confined to the base hospital under observation. Dental officers investigated and found two teeth buried in the upper jaw pressing on nerves, which condition led to his mental trouble. Upon the removal of the teeth, the select began to improve and was later discharged as cured. Everything known to the science of dentistry is done except gold work for the selects free of charge.

Appeal was made here today by officials of the war department commission on training camp activities to the people of the state who come here to visit their relatives and friends, secure accommodations for eating and sleeping before they go out to the camp, and to take advantage of the facilities put at their disposal by the commission to enable them to secure such accommodations.

With the coming of spring and good weather officials predict a heavy increase in the number of visitors to Camp Sherman at week ends. Hotels here are said to be able to accommodate about 500 guests at one time, while private citizens can care for as many more transients over week ends it was stated.

Last Saturday night approximately 900 calls for rooms were received by the officials of the information bureau, it is reported. Many people

DOUBLE MIDDLEMEN'S PROFIT CONDEMNED BY FOOD ADMINISTRATOR

(Associated Press Telegram)
Washington, Feb. 20.—Double middlemen's profits on food stuffs with a resultant price advance to the consumer caused by the practice of wholesalers in selling to each other to make up depreciated stocks, were condemned in a statement issued today by the food administration.

Although often it is necessary to replenish supplies by purchase from another dealer the statement said, there is no justification for placing "two wholesale or two retail profits on the same lot of goods."

Resales should be permitted only with the consent of the state food administrator and with the provision that dealers share the usual wholesale profit on the entire transaction.

STRIKE OF LONGSHOREMEN.
(Associated Press Telegram)
New York, Feb. 20.—More than 900 longshoremen and dockworkers employed on the Southern Pacific Steamship company here, failed to report for work this morning, renewing a strike under adjustment by the shipping board's labor adjustment board.

PREPARING FOR BATTLE ON THE WESTERN FRONT

(Continued from Page 1)
The Butte du Mesnil, along a front of about 1400 yards. The French, succeeding in penetrating the German positions broke through the second and reached the third German line. During this brisk attack the French destroyed many enemy shelters, inflicted much damage to enemy positions besides bringing back 150 prisoners.

Other successful raids were undertaken by French detachments in the vicinity of the Chemin des Dames east of Rheims in upper Alsace and elsewhere. In all the French drive forward twelve very fortunate reconnaissance undertakings along different parts of the line. The German units were also active. Their attempts to reach the French lines were temporarily successful in the vicinity of Bexevaux and in Alsace. However, seven German raids at various other points broke down. French artillery kept the enemy constantly engaged along the widely scattered area.

"The British front was also the scene of numerous minor engagements. No important actions took place and the enemy who was evidently busy with the grouping of units and disposing fresh forces recently arrived from other theatres, in the front line undertook only such reconnoitering engagements as to familiarize the new units with the nature of the terrain in front of them."

"In the Italian theatre the enemy has again assumed an aggressive attitude."

"The concentration of an important body of German cavalry in the vicinity of Riga is noted and it is believed the Germans may find it expedient to advance on Petrograd. It is difficult to determine the exact status of affairs in southwestern Russia. The Russian contingents are evacuating the Armenian centers south of the Black Sea which are being recaptured by Turkish detachments. Tribizonid will probably soon fall into Turkish hands."

"It is important to record that large contingents of Arabs are joining the forces of the Sheik of Mesopotamia who is co-operating with the British."

"The Arabs have defeated the Turks in two encounters, occupied El Mazreh, southeast of the Dead Sea and are advancing along the Hedjaz railway towards Maan."

BOARD MEMBER DEAD.
Columbus, Feb. 20.—T. E. Davey of Youngstown, Republican member of the state board of administration, died this morning following an illness of several weeks. He was 62 years of age and had served on the board since it was organized in 1912, having been appointed by Governor Judson Harmon.

Bright's disease was reported to have been one of the causes of his death. He had been ill for some time and the last meeting of the board was held at his bedside.

Mr. Davey was considered one of the highest authorities in the country on the care of state wards. He had made a life study of this work.

GREAT RUSSIA IS INVADED BY GERMAN ARMY

(Continued from Page 1.)
mission will be named to decide the disposition of Cholm on race principles. At the same time the premier points to the material gains which will come from the peace. The Austro-Hungarian plea for food will be met from the Ukrainians' stores he intimates, declaring that the Ukrainian surplus which has been placed at the disposition of the central powers will be more than the latter possibly could carry away by the means of transportation available.

News agency advices report indications of continued industrial unrest in Germany manifested by the determination of the German independent socialists to arrange for a demonstrative strike in the German munition factories beginning on March 1.

Germany has not replied to the Bolshevik offer to accept an enforced peace. Her armies, having occupied Dvinsk and Lutzk, continue the invasion of great Russia on a front of more than 400 miles from the Gulf of Riga to Lutzk.

Menaced by the power of German militarism, the Bolshevik government unprepared for warfare, agreed to accept the hard terms refused recently at Brest-Litovsk. It is uncertain whether the back down on the part of the Great Russia will halt the onward march of the Germans, who may intend the capture of a great portion of Russia.

Bolshevik power depends greatly upon making peace, the cry for which has caused the overthrow of three other Russian governments within a year. In agreeing to a German peace, the Bolshevik protest against the invasion.

Russian army units have been ordered to propose to the invading German troops that they refrain from fighting. Should the Germans decline the Russians are to offer resistance.

German and Austrian newspapers are alarmed over the renewal of the German war against Russia, which apparently is not popular with the peoples, especially the Austrians. Vienna papers say Austria has no cause to make war on Russia and the socialist organ there calls on the government to announce that hostilities with Russia are over. They say nothing, however, against the German terms for Russia, which include the surrender of Poland, Lithuania, Riga and Moon Island and the payment of a tribute of \$4,000,000,000.

Although quite prepared to advance against defenseless Russia the Germans have made no offensive movement on the western front.

Activity on the British and French front has been confined almost wholly to artillery bombardments, particularly on the Arras-St. Quentin sector, in Champagne and northeast of Verdun. On the American sector a German patrol has been dispersed with casualties and the American artillery has been scattering shrapnel over the German trenches. Raiding and artillery operations are becoming more active on the Italian front.

Marked aerial activity continues on the western front and entente aviators have accounted for 33 more German machines. British aviators in three days have brought down or disabled 57 German airplanes. British and French airmen have not let up in their bombing attacks on important points in German Lorraine, both night and day raids being carried out. Airdromes, docks and other targets in Belgium are being bombed by British naval airmen. Berlin reports the destruction of seven allied airplanes.

Attacks on the Lloyd George government in England have been quieted again by the premier in a personal appeal to the house of commons either to accept the policy agreed on at Versailles or to put in another government. No proposal for a vote of a want of confidence was made, the opposition council, the premier said, had accepted with slight modifications the plan proposed by the American delegates, who were praised warmly by Mr. Lloyd George.

imperial general staff, and that he should be absolutely free and unfettered in the advice he gives as a member of the board of military representatives at Versailles. He was to have the powers necessary to enable him to fulfill the duties imposed upon him by recent Versailles decisions.

The chief of the general staff was to hold office under the same conditions and with the same power as previous chiefs of staffs and was to remain the supreme military adviser to the government.

"We are under the impression," the premier said, "that all difficulties—constitutional and technical—definitely had been overcome by this document which had been shown to Field Marshal Haig. General Robertson unfortunately was away at the time, otherwise he would have been present at the conference. Being under the impression that all difficulties had been removed and that Versailles had become more important as the center, the government offered the position to General Robertson. Only after this occurred I became aware that General Robertson was not willing to acquiesce in the system and that he took objection, not on technical and constitutional grounds, but on military grounds, to the system which the Versailles council had decided unanimously to adopt."

The premier, in praising General Robertson, said they had passed without an unkind word. The government proposed to invite from the highest military authorities suggestions as to the best means of removing the anxiety and, that in the

ADVERTISING WAR SAVINGS STAMPS IN LOCAL STORE

Mr. M. J. Beene, in charge of the advertising for the Meyer & Lindorf drygoods store, is an enthusiastic booster for War Savings stamps. With the cordial consent of Mr. Lindorf, Mr. Beene has had about 300 attractive red, white and blue cards placed in the store on counters and shelves and cases showing a picture of Uncle Sam and reading: "Buy War Savings Stamps Here. Work, Save and Serve." In addition to advertising the government's saving stamps the cards are made to serve a double purpose by calling attention to various attractive offerings of merchandise. Of course, the store is also displaying the government posters, the regulation salescards, and is using its best efforts to promote sale of stamps to both employer and patrons of the store.

MEXICANS PURCHASE WHEAT AND FLOUR

(Associated Press Telegram)
El Paso, Tex., Feb. 20.—Between 20,000 and 40,000 tons of wheat and flour have been purchased in Chile and Argentina for distribution in Mexico, according to El Universal, a semi-official newspaper published in Mexico City. The wheat and flour purchased is expected to reach Mexico City by March 15, the newspaper says.

UNITED STATES MAY OPPOSE THE ACTION OF ARGENTINE

(Associated Press Telegram)
Washington, Feb. 20.—Any attempt by Argentina to dispose of any considerable quantity of wheat other than to allied countries probably will meet with opposition by the United States and her co-belligerents. The report that Mexican agents had made contracts for wheat in Argentina were supplemented by information at the state department today which indicated that the agents were members of the party that accompanied Luis Cabrera to South America.

Contracts already have been made by the French and British for the greater part of the surplus of Argentine wheat and officials of the Argentine government will see there is no violation of those agreements. In the event an effort is made to move grain in Mexico in large quantities difficulties probably will be placed in the way of providing bunker coal for any ships that might be intended for that purpose.

A Man of Sense

A man of thrift is simply a man of sense, and the most sensible thing any man can do is to save his money. For thrift is not merely hoarding money. It is the application of intelligence, prudence and shrewdness to the use of money. And the best way to use money is to make it work for you in this bank, where it is protected by Uncle Sam.

**TO RELIEVE CATARRHAL
DEAFNESS AND HEAD
NOISES**

If you have Catarrhal Deafness
or head noises go to your druggist
and get 1 ounce of Farnint (dou-
ble strength), and add to it 1/2 pint
of hot water and just a little
sugar, as directed in each pack-
age. Take 1 tablespoonful four
times a day.

This will often bring quick relief
from the distressing head noises.
Clogged nostrils should open,
breathing become easy and the
mucus stop dripping into the
throat. It is easy to prepare, costs
little and is pleasant to take. Any
one who has Catarrhal Deafness
or head noises should give this
prescription a trial. T. J. Evans

A SUSPENDED SENTENCE IS GIVEN MILLER

In the case of the State of Ohio
vs. Charles Miller, indicted for
breaking into the dwelling-house of
Jennie Merchant in the night sea-
son, the defendant pleaded guilty to
entering the dwelling-house in the
daytime. He has been in jail about
three months. The court sentenced
the defendant to jail for four
months, and suspended the sentence
as long as he obeys the laws and
leads a sober and upright life, and
pay the costs within 30 days.

An indictment against the defend-
ant charging fornication was nolled.
The court and a jury were en-
gaged on Wednesday in hearing the
testimony of the witnesses in the
case of the State of Ohio vs. David
Hall, charged with seduction under
promise of marriage.

Fires Answer.

In the case of James Kirkpatrick
vs. the Ulica Gas, Oil and Mining
Co., the plaintiff filed an answer to
the cross-petition of the defendants
today in common pleas court deny-
ing every allegation contained there-
in.

Appeal Case.

Henry Deining has filed a peti-
tion in common pleas court against
Stewart Brothers and Alward. The
case was appealed from the docket
of Justice D. M. Jones and involves
a judgment against the plaintiff for
\$77.75. When the case was appealed,
by unavoidable misfortune the plain-
tiff was prevented from defending
himself and on the advice of his
counsel did nothing further until the
case was assigned for trial, being ig-
norant of any necessity to file any
further answer. On September 8,
1917, a judgment was rendered on
the defendant's petition and the
plaintiff says he knew nothing of
the same until notified by the sher-
iff. The plaintiff further says he
has a valid defense in that the suit
was upon a note given for the pur-
chase of furniture and that the fur-
niture was not of the quality repre-
sented. Plaintiff prays that the
judgment be set aside and that he be
permitted to make his defense there-
to and in the meantime the defend-
ant be enjoined from proceeding to
enforce the judgment.

NO SPRING VACATION FOR LOCAL SCHOOLS

The board of education held its
regular meeting last night at 7:30
o'clock with all members present.
The minutes of the last meeting
were read and approved and routine
business was then transacted. Prof.
H. F. Moninger was present in the
interest of establishing a night
school for the conscripts employed
in the different plants of the city.
He has been in communication with
all the heads of the different man-
ufacturing plants and without excep-
tion they were all very enthusiastic
over the project and were willing to
make sacrifices to further the educa-
tion of their employees. The board is
giving this matter serious considera-
tion. "Trust Officer Handle reported
the plumbing of one of the school
buildings out of commission and
was ordered to have it repaired.

After considerable debate a resolu-
tion was passed to abandon the
spring vacation and hold the schools
in session until the final summer
vacation which will be somewhat
earlier this year than in previous
years as they will be dismissed on
May 30. The cause of the abandon-
ment of the present vacation was due
to the fact that the schools have
been dismissed a number of days
this winter on account of the fuel
shortage. By the early dismissal of
the schools this will give the stud-
ents an opportunity to secure work
much earlier than otherwise and this
fact had much to do with the de-
cision of the early dismissal. After
this resolution was passed the board
adjourned.

led to Camp Sherman Saturday by his
critical illness but he was improved
Monday and they returned home last
night. The telegram telling of the
unexpected operation came at noon
today.

BOMBS DREPPED BY ENTENTE AVIATORS

(Associated Press Telegram)
Amsterdam, Feb. 20.—A raid by
entente aviators on Treves, Rhenish
Prussia, is reported in a dispatch
from that city to the Cologne Ga-
zette.

It says bombs were dropped in
various parts of Treves, causing
damage to property. No military es-
tablishments were injured.

Treves is a city of about 45,000
inhabitants on the Moselle river 35
miles from the French border.

ISSUE FLOOD WARNING.

(Associated Press Telegram)
Pittsburgh, Feb. 20.—Heavy rains
during the past 24 hours over the
water sheds of the Monongahela and
Allegheny rivers caused the Pitts-
burgh weather bureau today to issue
a flood warning for this district and
upper Ohio river points. In a single
hour today between eight and nine
o'clock the gauge at the point bridge
showed a rise of 1.1 foot. Indications
were that the rise would continue at
that rate for several hours.

Pauw has lost its fifth athletic cap-
tain of the year, with the departure
of John P. Wheat Jr., captain-elect
of the 1918 football squad. The other
four each entered some branch of
military service. Wheat has enlisted

Wrong Line of Talk.

Among the guests at a reception
was a distinguished man of letters.
He was grave and somewhat tacit-
urn. One of the ladies present sug-
gested to the hostess that he seem-
ed to be out of place at such a party.
"Yes," replied the hostess, with a
bright smile, "you see, he can't talk
anything but sense!"—Christian
Register.

Then Silence Reigned.

"Ma," roared Mr. Jagsby, "where
in the bow-wows is my hat? I can't
keep a thing about this house. It's
a shame the way things disappear
without any apparent reason. I
would just like to know where that
hat is."

"So would I," replied Mrs. Jagsby
coldly. "You didn't have it on when
you came home last night."—Birm-
ingham Age-Herald.

Night Thoughts.

That one of the professors at
Princeton has had his domestic
trials was recently evidenced when a
young woman of rather serious turn
endeavored to involve him in a the-
ological discussion.

"Professor," she asked, "do you
or do you not believe in infant
damnation?"

"I believe in it," said the profes-
sor, "only at night."—New York
Times.

When Jail Looms Bright.

Mr. Younghusband reached home
late for dinner.

"I got caught for speeding on the
way home," he explained rather
sheepishly. "Have to appear tomor-
row morning and get ten dollars or
fifteen days."

Mrs. Younghusband fervently
clapped two blistered little hands
together. "What a providence!" she
cried devoutly. "Take the fifteen days,
John! The cook has just left!"

FORMER NEWARK MAN MAY LOSE BOTH HIS EYES

R. E. Clary of Lore City, O., for-
merly of Newark, will probably lose
the sight of both eyes as the result
of burns sustained about the face,
ears and eyes Wednesday night, when
a miners carbide lamp exploded at
the Kings mines, where he was work-
ing. Mr. Clary was taken to his home
and later removed to the Cambridge
hospital. The sight of the left eye is
entirely destroyed and the right eye
so badly affected that slight hope is
entertained for even partial recovery.
Mr. Clary had recently suffered from
smallpox and had only been working
a few days when the accident occur-
ed.

He was employed as a B. & O.
brakeman while in Newark and later
moved to Lore City with his family.
His many friends here hope for his
speedy recovery.

STIERS RETURNS TO HOME AT ZANESVILLE

Lawrence Stiers, the Zanesville
youth who yesterday was given a
suspended sentence to the Mansfield
reformatory, for complicity in the
Granville bank robbery last October,
has returned to the Clay City where
he will be given employment.

His local attorney, H. C. Ash-
craft, who was largely responsible
for securing the favorable consid-
eration of the court and who made a
splendid plea in his behalf, stated
today that the young man, who
comes of an excellent family, has
promised to keep away from unde-
sirable associates and that he will
never be influenced by them again.

MAYOR GILL DEFEATED FOR A RE-ELECTION

(Associated Press Telegram)
Seattle, Wash., Feb. 20.—Hiram
C. Gill, recalled as mayor in 1910
and twice returned to that position,
was defeated in the municipal pri-
mary yesterday as a candidate to
succeed himself as mayor. Two can-
didates were chosen to make the
race March 5. They were: Ole Han-
son, progressive candidate for U. S.
Senator in 1914, and James Brad-
ford, an attorney.

Maintenance of moral conditions
in Seattle and elimination of alleged
anti-war propagandists were the
principal issues in the campaign.

DEMONSTRATION AGAINST PEACE WITH UKRAINES.

Amsterdam, Tuesday, Feb. 20.—A
dispatch from Vienna says that as
a demonstration against the peace ef-
fects with the Ukraines, a one day
strike was carried out by the work-
men of Lemberg, Cracow and other
Galician towns Monday. There were
speeches, processions and religious
services, but order everywhere was
preserved.

GEORGE GREEN.

George Green, 85, died at his
home, 210 Granville street, yester-
day afternoon. He has been in fail-
ing health for the past few months,
and recently contracted a case of
smallpox from his son, Edwin, who
has been ill with the disease for the
past few weeks. This together with
the infirmities of old age caused his
death. The deceased is survived by
his wife and son—both of the home.

The funeral services were con-
ducted this afternoon at 2 o'clock
at the home. Interment was made
in the cemetery in the vicinity of
his former home near Hanover.

DR. SOUTHWORTH DEAD.

What Our Neighbors in Ohio Say

About a New Discovery

Many local people are glad to testify to the good results obtained from Anuric, the discovery of Doctor Pierce of the Invalids' Hotel, Buffalo, N. Y., for kidney and bladder disorders, backache, rheumatism and all uric acid troubles. This is what Mrs. C. E. Grainger says:

DELPHOS, Ohio.—"I saw an advertisement in the paper of Dr. Pierce's Anuric Tablets and sent for a trial package. I had doctored a good deal for ten years. I often took different kinds of medicine for kidney or bladder trouble which the doctor thought I might have. Well, I never got any better. Sometimes I would be disturbed three or four times at night. Never any pain, just uneasiness. I had a soreness in my back and an awful weak back, so I wanted to see if the trial package would benefit me. I felt better from the first so I went to the druggist and got a small bottle of Anuric Tablets and took all of them and never had to get up any more. After that I can say Anuric is just as recommended."

When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and joints, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the tissues, muscles and joints, it causes lameness, rheumatism, gout or sciatica. This is the time to try Anuric, double strength, the discovery of Doctor Pierce, for kidney trouble and pains in the back and all over body! Write Doctor Pierce, Invalids' Hotel, Buffalo, N. Y., and send 10c for a large trial package—this will prove to you that Anuric is many times more potent than lithia and eliminates the uric acid from the system as hot water melts sugar—or ask your druggist now for a 60c bottle of Anuric.

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain multifid coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two spoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multifid coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles, and the substitute for calomel.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

BOYS' INDOOR CIRCUS WILL BE BIG EVENT

The Boys Indoor Circus which will be put on Friday and Saturday of this week, by the Y. M. C. A. promises to be up to expectations. The boys have been working hard getting it into shape, and as it is a comparatively new and novel thing in Newark, should be well encouraged by attendance. This is the old backyard circus on a grand scale, with older heads to help out, and it will surely be a spectacle worth witnessing. It will take you back to the days when you got up at 3 a. m. to see the circus unload, and then hung around until they let you water the elephant for a ticket through the flaps.

Some of the wonderful things to be seen are, "The Arizona Monster," the only one of its kind in captivity; the monkeys who sit up at a table and eat like humans; the musical seals, and the wild man from Borneo. A troupe of tumblers styling themselves, "The Topsy Turvy Troup," will do some thrilling stunts, and boxing and wrestling, Roman style, will be featured. Jaunty little Japs will perform Jiu Jitsu holds and throws, and a chariot race will work the audience up to the last notch of excitement. The always present strong man will show his immense strength by breaking a chain, etc., and a marvelous invention, "The Iron Man," will be shown. An ancient form of fighting in the Roman arena will be demonstrated, and the irrepressible Mutt and Jeff have consented to be a party of the big show. Funny, freaky, clumsy clowns will everywhere be in evidence, and promise to be among the best features of the circus. If you want to do the correct thing, take your family and the neighbor's boy.

A Few Good Remedies.

It is not often that I give recipes for cold creams or other lotions in this column. As a rule I prefer, to advise my readers to use God's own natural beauty giving aides like fresh air, sunshine, vegetables, fruits and pure drinking water. But this winter has been extreme and to help those who really need a few good recipes for some-made beauty aides, I am giving the following, splendid instructions for making the same:

A good cold cream to have on hand to use before retiring, or as a mask to shield the complexion from the harsh winds, is made of these ingredients and is a cleansing and nourishing cream as well. Oil of sweet almonds, four ounces; white vaseline, one ounce; white wax, one ounce; tincture of benzoin, one ounce; extract of violet, ten drops. Here is an excellent skin food: Almond oil, four ounces; rosewater, four ounces; spermaceti, one ounce; white wax, one ounce; tincture of benzoin, one ounce; orange-flower, violet or lavender water may be substituted for the rose water.

This is an astringent tonic and like most astringents, has a whitening effect. Put this on after washing the face: Rose water, three ounces; elder flower water, one ounce; tincture of benzoin, one fourth of an ounce; tannic acid, five grains. Mix and shake well. Wipe over the face with a soft cloth several times a day. When the skin becomes dry, use less frequently, and if very dry omit altogether. This action, will be largely offset by the use of the cold cream given above. Sweet milk, cream and buttermilk are natural beautifiers which have been employed by celebrated beauties of all ages and which are recommended to the woman who would improve her complexion today.

Our Boys and Girls

You do not need to buy the expensive bath and food thermometers for baby's use unless you choose. You will find it just as satisfactory to plunge your bare elbow into the bath water to ascertain if it is hot or cold enough, and you test the baby's bottle for the temperature of the milk by dropping a few drops on your bare wrist.

Night lights often become a serious item of expense, but one may now have a tiny electric bulb pocket lamp at a very small outlay. If no kind soul bestowed a hot water bottle on your baby at Christmas, bear in mind that, in case of colic, a muslin bag, filled with bran or salt and heated between two plates is both convenient and safe to apply to baby's stomach.

Some babies seem to take cold on the slightest provocation and it is often due to the fact that they have been kept in too warm a room or have been clothed too warmly. At night keep baby's room at a temperature of sixty-eight degrees and in the day at a temperature of seventy degrees. Have the thermometer at about the level of the baby's head when he is in his crib. When baby has a cold and his nose is stopped up, twist a bit of cotton about a wooden toothpick and insert it a little way up the nostril, being careful not to push it up too far.

Every Day Etiquette

"I wonder," sighed the young hostess, "if it is proper to place the lady at the left or right of the man who is to take her in to the table."

"The couples seated to the right of the host are placed with the women at the right of their escorts. The couples at the right are placed with the women at the left," replied the older woman, an expert in the ways of social entertaining.

Don't jump at conclusions. Be sure you are right, and you'll get what is left.

Stop washday waste—

Use Fels-Naptha Soap.

It eliminates boiling and hard rubbing and stops the waste of washday wear on clothes.

AMUSEMENTS

GRAND.

"Hands Up!" The new Triangle play starring Wilfred Lucas, which will be exhibited at Grand Theatre Wednesday, is an exciting story along new lines. Lucas appears as a brilliant, confident, who years before had been a notorious outlaw. With his daughter he is making a tour of inspection over the railway system, when their train is held up by bandits, the leader of whom is bewitched by the president's pretty daughter. She is thrilled by the exciting situation and insists upon exchanging rings with him. Later they meet in New York and plan an elopement. The complications that ensue bring the railroad president back to the companions of his earlier days. But this time he does them with their own trade term, "Hands Up!"

Monte Blue has the role of the young robber, and with Collette Moore, as the president's daughter, he performs a spectacular riding stunt during the scene of elopement.

ALHAMBRA.

Tonight and Tomorrow.

The things that a girl can do to save her lover from being accused of murder are interestingly and entertainingly shown in "The Strong Way," the World's Greatest Traveler, which in June Elvidge is the brilliant star. June Elvidge appears in the role of Eileen Torrence in this production.

THE MARKETS

Chicago Grain and Provisions.

(ASSOCIATED PRESS TELEGRAM)

Chicago, Feb. 20.—Continued scantiness of receipts for grain, and the strengthening of the corn market. Opening figures, which varied from the same as yesterday's closing, were 1.27 1/2 for March and May, and 1.26 1/2 for 1.27, were followed by a slight further upturn.

In subsequent transactions February delivery touched the maximum, 1.28 1/2, and May eased off a trifle and closed steady at 1.27 1/2. The 1.26 1/2 with the finish was a whole unchanged to 1/2 cent compared with 24 hours before.

A broad general demand sent the oats market soaring. After opening 40 to 1 1/4 c. higher, with May 68 to 88 1/2 c., the market eased further gains before beginning to react.

Provisions rose with corn and grain. Arrivals of hogs were much less plentiful than had been expected.

Wall Street.

(ASSOCIATED PRESS TELEGRAM)

New York, Feb. 20.—Overnight news from Europe, the Russian situation, afforded a pretext for moderate selling at the opening of today's stock market. Recession of a point was made by leaders, notably United States Steel, Reading and Marine preferred.

New York, Feb. 20.—Halted and set-backs alternated during the irregular forenoon. The stronger features included Baldwin Locomotive, Crucible Steel, American Western Sugar, Tobacco and National Enameling, the latter gaining almost 2 points on its increased dividend. Standard Oil and Industrial were hesitant with ship-ships, metals and oils. U. S. Steel recovered part of its initial loss, and closed at 1.27 1/2. The market was unchanged to 1/2 cent compared with 24 hours before.

Liberty 3 1/2 c. sold at 97.90 to 98, first 4 at 98.50 to 98.52, and second 4 at 98.10 to 98.15.

150 REGISTRANTS TAKE EXAMINATION AT ZANESVILLE, O.

Over 150 draftees from Licking, Perry, Muskingum and Monroe counties, who had been previously examined by their local boards, and found physically deficient, were examined by the district medical advisory board at Bethesda hospital of Zanesville, yesterday.

A special car left Newark yesterday morning at 8:10 o'clock and the men from this city were taken directly to the hospital where the examinations began at 10:30 o'clock. The following are the names of the men from Newark: Carl T. Stewart, Carl E. McCann, B. R. Shaw, Carl J. Ankele, Earl Rossin, John R. Maybold, John Chester, Ralph Davis, Maurice Flihn, William McMahon, Eber Beach, Robert Green, John McCabe, Amos Burton, Clarence McDonald, Jesse Trace, Mike Pete, William Donahue, Harry Chenoweth, Andrew Pfeiffer, Royal Lawrence, Benjamin Dotson, Worth Armentrout, Floyd Pease, Arthur Frank, Sidney Jones, Paul Murphy, Quincy Cheadle, Leon Pickett, William Sext, Louis Kent, Whitney Hunter, Perry Wharton, Linwood Pettit, Percell Traikn, Ernest Thoma, Andrew Klaus, Emil Siegle, Alphonso Welsh, Sanford Hahn, Harold Aumiller, Guy Aldridge, Thomas Flihn, Clarence Snyder, Walter Mikesell, Wilford Mulligan, Asa McGinnie, William Carpenter, Orville Costley, Charles Dehniger, Frank Hoffer, Raymond Hohl, Fred Nehls, Christian Glassmeyer, Ray Lytle, Milo Kitzmiller transferred from Maywood, Ill., and Charles Watts of Cambridge.

The following men appealed their cases to the district medical board: Oscar McMillen, Paul Burkhardt, Charles Thompson, Fred Ellis and Arthur McFarlane.

The medical advisory board is composed of Drs. J. M. McClain, Co-shooton; C. W. Hanna, T. H. Infield, F. S. Barton, J. G. Holston, Jr., and F. L. Cary, dentist, all of Zanesville. W. E. Ankeney of the R. L. Doffings Co., acted as clerk to the board.

A GOOD TIP FOR RHEUMATIC FOLKS

Vegetable Preparations Supercured
by Mineral Compound Un-
earthed Down In Mississippi

CHEAP AS DIRT AND DRIVES
OUT "RHEUMATIZ"

Waking up mornings stiff and numb with rheumatism won't let any man or woman do much work and when the pains get up around the shoulders and arms damp mornings you can't do anything at all. Climate has a lot to do with it but no use rubbing or waiting and the discovery of Acid Iron Mineral down in Mississippi gives most anyone a chance to soon be free from such troubles. One man, Mr. J. B. Watkins, of Troutville, Va., writes: "I suffered from rheumatism so bad I hadn't been able to raise my arm above my head and couldn't get my coat off for a long time, and damp days a dull throbbing pain in my shoulder, especially at night drove me crazy almost, but Acid Iron Mineral was recommended and one little bottle did the work for me and I want to recommend it. I can now use my arms and shoulders freely and even damp chilly mornings I am not troubled in the least. Its use proved its merit and I'm for it all the time."

The big percentage of medicinal iron in Acid Iron Mineral, is of course what gets results in such blood troubles, and the compound is so strong that a half teaspoonful makes a generous dose mixed in water after meals. Everybody needs iron and as a blood tonic and purifier and eradicator of uric acid there's nothing like it. The big outstanding feature is that it doesn't injure the teeth, cost is but little and it does the work quickly. Most stores have it.—Advertisement.

SOLDIERS' LETTERS

The following letter is from Sergeant Ross C. Robinson, son of Mrs. John Robinson, Logan avenue, this city, and was written while the sergeant was in England on his way to France. He is a member of Motor Truck Company 315, Motor Supply Train 404, American expeditionary forces in France.

"January 25, 1918.
"Dear Mother and All—I am now at a rest camp, somewhere in England. Everything over here shows signs of spring and everything looks good."

"I had a ride on an English railway and enjoyed it very much. The engine and cars look funny to us, but the roadways and tracks are in good shape and we made good time. The fields are being ploughed and some grain is already up out of the ground."

"All the houses and other buildings are built of brick and look very much alike. All the roads in the country go over the tracks and I did not see a place where you have to drive on the tracks."

"We rode in third-class coaches, which have apartments for eight men, and you cannot get in another apartment without getting out of the apartment."

"The engines, coaches and other cars are quite a bit smaller than American cars."

"We were certainly glad to see land after riding so long on the water. There are a good many American soldiers here and it does not seem so much like a foreign country."

"I was in the American Y. M. C. A. here and they look good to me. I have some English money now and I am learning what it is worth."

"Write to me at American expeditionary forces in France."

"I will close for this time, hoping you are all well. Your son, Ross."

Editor of the Advocate:—I received the service medal that the people of Newark and Licking county sent to me, and I appreciate it very much and hope to prove myself worthy of it. I have it on now and shall always wear it, even when I come back. I like the life of the soldier and am getting along fine. We have not drilled very much on account of the cold weather but since the change we are kept busy and will be from now on at bayonet practice. It was rumored that we were to be transferred to Camp Grant at Rockford, Ill., so if it proves to be true and I am sent there I shall just tell the people of Newark and Licking county that I did from a wound in my breast and not in the back.—Wishing to remain your's respectfully, Pvt. Fred R. Coleman, 27th Co., 10th Training Br., Camp Sherman, O.

Editor of the Advocate:—I wish to acknowledge receipt of Service Medal which I received about two weeks ago.

CUDDY WAS READY.

Cleveland, Feb. 20.—Thomas Cuddy, of this city, has received his questionnaire, but has returned it to the draft board with the following note written across the face of it in red ink:

"I am as near fit as they make them. One leg is a little shorter than the other, but, nevertheless, I am there. I am fit as a fiddle, sound as a bullet, and ready to fight at the drop of a hat. Cut out the red-tape and wire men when and where to report."

Cuddy was recently refused at the local United States marine corps recruiting station on account of one leg being a half an inch shorter than the other.

RESOLUTIONS.

Whereas, It has been the will of Almighty God in his infinite power and wisdom to call to his last reward one of our most worthy brothers while serving our country in France in the person of Tom Repde, and

PAPE'S DIAPEPSIN FOR INDIGESTION OR BAD STOMACH

Relieves Sourness, Gas Heartburn,
Dyspepsia in Five
Minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and upsets you; your head aches and you feel sick and miserable, that's when you realize the wonderful acid neutralizing power in Pape's Diapepsin. It makes all such stomach misery, due to acidity, vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have an acid stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" sweeten out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest antacid and stomach relief known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Advertisement.

Our squadron moved from Kelly Field to a new field, which is to be known as Brooks Field, named after our aviator who fell near here in the spring of 1917. I am in a squadron which is known as the 461st Aero Construction Squadron. We are located here at Brooks Field to build the barracks and hangers which are necessary to house the men and aeroplanes who will be located here in the near future. This field is to be devoted entirely to advanced aeronautics. Here they will teach such things as bomb dropping, machine gun firing and wireless telephony from aeroplanes. I have been appointed Sergeant-Major and have charge of all the paper work of the squadron, and it sure is some job. I keep me busy from 6 o'clock in the morning until 11 at night. Well, I guess I will get back to the real subject, the Service Medal. I appreciate this very much and shall wear it proudly, both as a means of reminding me of the people in dear old Newark, for which I really need no reminder, and as a means of identification. Again thanking you for this remembrance, I remain, Yours truly, Neil J. Floyd, care 461st Aero Squadron, Brooks Field, San Antonio, Texas.

MAKE A COMPARISON

A comparison of several of the 8c size packages of different brands of condensed milk, with a pint bottle of our own milk, recently gave the following results.

A pint bottle of our milk contained 17 ounces of milk and costs 6c. An 8c can of condensed milk contained 6 ounces of fluid which was to be diluted by an equal amount of water, after which the purchaser has ready for use the equal of 12 ounces of ordinary milk.

It is apparent that these cans of condensed milk contained approximately 5 ounces less of milk, or its equivalent at an 8c price than is contained in a pint bottle of our milk costing 6c.

A Joyful Sound.
There's beauty in the thunder's roll
And in the ocean's roar.
I'd rather hear a ton of coal
That hits the basement floor.

LET THIS CREAM CURE YOUR PIMPLES

For several weeks past T. J. Evans has done a big business in selling Hokara, the skin healer that has won so many friends in Newark. It has been found to heal not only all minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., but also the worst sores, ulcers, or even chronic eczema and salt rheum. There is yet to be found any form of wound or disease affecting the skin, or mucous membrane that Hokara does not help, and its action is so quick that those who try it are simply delighted with it right from the start.

In spite of its unusual curative powers, the price is trifling. To convince every one of its merits T. J. Evans will sell a liberal-sized jar for 35c. And remember that if you do not think it does what it claims, you can get your money back. You certainly can afford to try it on this plan.—Advertisement.

GEO. WELLS TOOK THE NERV-WORTH WAY TO HEALTH

Destination Reached At the Cost of
a Dollar in a Very Short
Time

In this entirely new statement the victims of stomach ills will find a most valuable message. In the light of what it says such sufferers have no excuse for bearing the dangers and discomforts of indigestion and dyspepsia when the Nerv-Worth way to health lies open before them as it did to Mr. Wells and with as little risk, for his dollar would have been returned by his druggist if Nerv-Worth had failed to stand the test. Note what Mr. Wells said:

"I have been troubled with indigestion for two years or more. Would float after eating. I had Nerv-Worth demonstrated to me at Phillips' drug store and procured a bottle. I have only taken one bottle and THE DISTRESS AFTER EATING IS GONE. I now can eat anything. Nerv-Worth has my hearty recommendation."

"GEO. WELLS,
402 Lodi St., Elyria, Ohio."
Your dollar back at the T. J. Evans Drug Store, Newark, if Nerv-Worth does not help YOU.

At Hebron, the Hebron Drug Store sells Nerv-Worth; at Utica, the Utica Drug Store; at Granville, W. P. Ullman, and at Johnstown, C. S. Howard.—Advertisement. 2-18-20
